Construction & Installation

The Duet fixture is constructed from aluminum that can weather the outdoors. Each fixture is connected to one another through standard Cat 5e shielded wiring via RJ 45 plugs and connectors.

Electrical & Operations

The Duet fixture is universal voltage (120-277V) with a highly reliable RGB driver. It can operate in temperatures -20 degrees Celsius to 40 degrees Celsius with high-efficacy LED chips to maintain overall cool fixture temperatures.

DMX-Full Scale RGBW Practical Applications

Duet is one of today's most dynamic accent LED light fixtures on the market that provides a rainbow-licious palette to make your facility jump off the property.
